1. E-mail me ONE .jpeg or .gif digital photo. Nothing through snail mail, please. (Have a friend SCAN your physical photo to send me.)
2. I'll CROP your photo unless told not to. If you want to single out just ONE FACE, please describe well whose face I zoom in on.
3. "Roll the dice" and let my inspiration create your photo. OR . . . YOU can describe a desired "look" or 1-3 THEMES from above list. Or describe yourself a little and see what I come up with! Your age, interests, favorite color. Want CRAZY or more recognizable?
4. Want NO Lettering? Want HeatherSong.com to appear unobtrusively on your photo like an autograph?  
OR . . . request VERY BRIEF wording. Like "Love, Joe" if it's a gift. Or "Happy Birthday, Joe". B-R-I-E-F or it will be unreadable.
5. YOU receive (soon, be patient) a .JPEG e-mailed to same address unless you request another. If there's a deadline for a gift, please let me know and I'll try my best (which is usually good)! Most effects are fun and unusual. Expect the Surreal!

HeatherSong will do something FUN and INTERESTING with the special image you send.
